## **Fees and Expenses**

Mortgage Money is a financial advice provider that charges for our services. Our fee is usually paid by the lender, insurance company or KiwiSaver provider in the form of a commission.

If a mortgage is discharged within a 27-month period, then we are required to pay back the commission to the lender. This would mean that Mortgage Money would not have been adequately paid for our professional services. If you do repay and discharge your loan and we repay the lender, Mortgage Money reserves the right to charge you a fee for professional services upto a maximum of \$3000. Our charge-out rate is \$250/hour, and an average loan settlement involves 12 hours of work.

If a insurance product is cancelled within a 2-year period, then we are required to pay back the commission to the insurance company. This would mean that Mortgage Money would not have been adequately paid for our professional services. If you do cancel the insurance product, Mortgage Money reserves the right to charge you a fee for professional services upto a maximum of \$3000. Our charge-out rate is \$250/hour, and an average insurance policy being issued involves 12 hours of work.

## **Commission and Conflicts of Interest**

Mortgage Money may receive commissions at settlement from the relevant lender if you choose to take out a mortgage or following my advice. The commissions are between 0.55% and 0.85% of the initial mortgage balance or amount funded. Mortgage Money may/will also receive 0.1% to 0.2% of the mortgage balance on each anniversary. We also receive a fixed rate roll over fee from some product providers if we assist in refixing your loan.

Mortgage Money is paid a commission for any new insurance taken up, of between 50% and 240% of the first year's premium, depending on which insurance company you take out cover with. From year two, Mortgage Money may then receive an annual commission of between 5% and 30% of the premium for the time Mortgage Money remains the servicing adviser on the policy. I will confirm the commission percentage Mortgage Money will receive from your policy when I provide my recommendation to you.

Mortgage Money is paid a commission for any new KiwiSaver transfers, of between 0.2% and 0.5% of KiwiSaver Funds Under Management on each anniversary of the transfer. Some KiwiSaver providers also pay a upfront commission based on the balance of KiwiSaver transferred. I will confirm the commission percentage Mortgage Money will receive from your policy when I provide my recommendation to you.

We can also receive a referral fee or commission if we refer you to our referral partners ( Initio Insurance and Tower Insurance).

We manage conflicts of interest by ensuring your interests are put first and by always recommending the best product for your purpose regardless of the type and amount of commission we receive and by ensuring the amount of any loan is in accordance with your identified needs.
